In the Claims

Please rewrite claims 1, 16, 17, 32, 40, 73, 75, 77, 96, and 97 as follows:

1. (Amended) An external fixation component comprising:
- (a) a first capture member adapted to capture a first element of an orthopedic fixation system; and
 - (b) a second capture member adapted to capture a second element of an orthopedic fixation system and coupled to the first capture member such that the coupling allows the first capture member and the second capture member to rotate about three axes relative to each other;
- wherein the coupling is adapted to secure the first and second capture members from rotation with a single activation;
